### Patient-Driven Groups Model - Effective 1/1/2020

Date: 12/31/19

**Effective January 1, 2020**, Buckeye will implement the CMS Patient-Driven Groupings Model (PDGM) for billing and reimbursement of Home Health claims.

The Patient-Driven Groupings Model (PDGM) relies more heavily on clinical characteristics and other patient information to place home health periods of care into meaningful payment categories and eliminates the use of therapy service thresholds. In conjunction with the implementation of the PDGM, there will be a change in the unit of home health payment from a 60-day episode to a 30-day period.

You may access detailed information about this change by visiting the CMS website at <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/HomeHealthPPS/HH-PDGM.html> (<https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/HomeHealthPPS/HH-PDGM>).

Please note a few key points to assist you in this transition with Buckeye:

- Buckeye will follow the guidelines outlined in the CMS model. Access these details using the CMS site:
