In Virginia: Anthem Health Plans of Virginia, Inc. trades as Anthem Blue Cross and Blue Shield in Virginia, and its service area is all of Virginia except for the City of Fairfax, the Town of Vienna, and the area east of State Route 123. In Wisconsin: Blue Cross Blue Shield of Wisconsin (BCBSWI), which underwrites or administers the PPO and indemnity policies and underwrites the out of network benefits in POS policies offered by CompCare or WCIC; CompCare Health Services Insurance Corporation (CompCare) underwrites or administers the HMO policies and Wisconsin Collaborative Insurance Company (WCIC) underwrites or administers Well Priority HMO or POS policies. Independent licensees of the Blue Cross and Blue Shield Association. Anthem is a registered trademark of Anthem Insurance Companies, Inc. The Blue Cross and Blue Shield names and symbols are registered marks of the Blue Cross and Blue Shield Association. Use of the Anthem websites constitutes your agreement with our Terms of Use.

Prepare for the CAA: Keep your provider directory information current

Published: Feb 1, 2022 - Administrative

The Consolidated Appropriations Act (CAA), effective January 1, 2022, contains a provision that requires online provider directory information be reviewed and updated (if needed) at least every 90 days. We are asking you to review your online provider directory information to help ensure Anthem Blue Cross and Blue Shield (Anthem) members can locate the most current information for in-network providers and facilities.

You can help us ensure your online provider directory information is current by:

- **Reviewing your online provider directory information on a regular basis to ensure it is correct.** You can check your directory listing on Anthem's *Find Care*. Consumers, members, brokers, and providers use the *Find Care* tool to identify in-network physicians and other healthcare providers supporting member health plans. To ensure we have your most current and accurate information, please take a moment to access *Find Care*. Go to [anthem.com](https://www.anthem.com), select Providers, then under Provider Overview, choose *Find Care*.
- **Submitting updates and corrections to your directory information by using our online Provider Maintenance Form.** Online update options include:
 - add/change an address location
 - name change
 - tax ID changes
 - provider leaving a group or a single location
 - phone/fax number changes
 - closing a practice location

Once you submit the Provider Maintenance Form, you will receive an email acknowledging receipt of your request. Visit the [Provider Maintenance Form landing page](#) for complete instructions.

AIM Specialty Health new phone number effective April 1, 2022

Published: Feb 1, 2022 - **Administrative**

AIM Specialty Health® (AIM)® has created a new AIM contact center phone number for providers to use to call in prior authorization requests for Anthem Blue Cross and Blue Shield (Anthem). The new phone numbers are listed below and will go into effect on April 1, 2022. Please use this new number to submit new prior authorization AIM requests or get an update on an existing request after April 1, 2022.

State	New phone number effective April 1, 2022
Indiana	(833) 775-1952
Kentucky	(833) 419-1357
Missouri	(833) 305-1807
Ohio	(833) 404-1678
Wisconsin	(833) 342-1253

As always, the best way to reach AIM is to use the [ProviderPortalSM](#):

- Self-service
- Available 24/7
- Customizable with physician information
- Easy to use and allows real-time determinations

The [ProviderPortalSM](#) is a fast and efficient way to submit and monitor requests. It also allows you to:

- Check order status and view order history
- Print/save PDF of order summary
- Use multiple staff members to enter/view the practice's orders
- Increase payment certainty

- Reference desk training and tutorials, including clinical criteria and CPT lists

Your first step is to register your practice in ProviderPortal. If you are not already registered, go to [ProviderPortalSM](#) to register.

It is CAHPS survey time!

Published: Feb 1, 2022 - **Administrative**

The Consumer Assessment of Healthcare Providers and Systems (CAHPS) is an annual standardized survey conducted starting February 2022 through May 2022 to assess consumers' experience with their provider and health plan. A random sample of your adult or child patients may get the survey. Over half of the questions used for scoring are directly impacted by providers. These questions are:

- When you needed care right way, how often did you get care as soon as you needed?
- How often did you get an appointment for a check-up or routine care as soon as you needed?
- How often was it easy to get the care, tests, or treatment you needed?
- How often did you get an appointment to see a specialist as soon as you needed?
- How often did your personal doctor seem informed and up-to-date about the care you got from other doctors or other health providers?
- How would you rate your personal doctor?
- How would you rate the specialist you see most often?
- How would you rate all your health care in the last 6 months?

Interested in how you can improve CAHPS performance? Anthem Blue Cross and Blue Shield (Anthem) offers an online course for providers and office staff designed to learn how to improve communication skills, build patient trust and commitment, and expand your knowledge of the CAHPS survey. The *Improving the Patient Experience* course is available at no cost and is eligible for one CME credit by the American Academy of Family Physicians. It can be accessed at <https://www.mydiversepatients.com/le-ptexp.html>.

Submit a claim payment dispute electronically for Anthem commercial members

Published: Feb 1, 2022 - Administrative

Filing claim payment disputes for our commercial members is now available on [availability.com](https://www.availity.com)

When you have additional information to share about a claim that has been denied, filing the dispute electronically is a cost-effective and time-saving alternative to paper and fax. This application enhancement enables a fast, efficient streamlined process for filing claim disputes:

- Supporting documentation can be digitally uploaded
- Dispute inquiries are digitally available on your dashboard
- Retrieve correspondence related to your dispute digitally through your dashboard
- A digital history for electronically filed disputes is conveniently located in one place on your dashboard

Two-step claim payment dispute process

There are two steps to the claim payment dispute process, and both can be accomplished in one place – through [availability.com](https://www.availity.com):

1. **Claim payment reconsideration.** This is your initial request asking us to investigate the outcome of a claim. Most issues are resolved during reconsideration, which we try to resolve within 30 days. In those instances when additional documentation is needed, the

determination may go beyond 30 days. If this occurs, we will notify you. You can access notifications about delays and determinations conveniently from your dashboard.

2. Claim payment appeal. If you disagree with the outcome from the reconsideration determination, you may request an additional review. When submitting a claim payment appeal, include the additional information needed to help us understand why the claim requires additional review. If a claim payment appeal requires clinical expertise, it will be reviewed by the appropriate Anthem clinical professionals. We make every effort to resolve the claim payment appeals within 60 days. If additional information is required to make a determination, notification will be available on your dashboard.

Receive determination electronically

Anthem will review the claim payment dispute and communicate an outcome on availability.com. Check the status of a claim payment dispute at any time from your dashboard.

Attend a Training Webinar

For step-by-step instructions on how to submit a claim payment dispute through Availity, attend one of these convenient live webinars:

Tuesday, February 1, 2022	2 p.m. ET
Thursday, February 3, 2022	1 p.m. ET
Tuesday, February 15, 2022	1 p.m. ET
Thursday, February 17, 2022	2 p.m. ET

Register for training by logging onto availability.com, select *Help & Training*, *Get Trained* and choose the session most convenient for you. Self-guided training is also available through *Get Trained*.

Heart disease is the number one killer of women

Published: Feb 1, 2022 - **Administrative**

Share information with patients about taking an active role in their heart health

[National Wear Red Day](#) is a great way to keep heart aware. It is also a great opportunity to have a conversation with your patients about their heart health. The Centers for Disease Control and Prevention (CDC) has information you can share with your patients, including a helpful [Know the Facts about Heart Disease](#) flyer that's free for health care professionals.

Controlling high blood pressure, diabetes, extra weight and unhealthy diets are heart disease contributors that you can help your patients recognize. For information about these heart disease risks to share with your patients, use the [CDC website](#) for toolkits, flyers and give-a-ways.

Measure Up: Controlling High Blood Pressure (CBP)

Known as the “silent killer,” high blood pressure or hypertension increases the risk of heart disease.

The HEDIS® measure CBP looks at the percentage of patients 18-85 years of age who had a diagnosis of hypertension and whose blood pressure was adequately controlled (140/90) in the measurement year. Record all blood pressure readings and the dates they were taken being sure to record the exact reading. Blood pressure readings captured during a telehealth, virtual care, telephone or e-visit should also be recorded.

Measure Up: Statin Therapy for Patients with Cardiovascular Disease and Diabetes (SPC/SPD)

Statins are effective at lowering cholesterol and protecting against a heart attack and stroke. Patients with diabetes also have elevated cardiovascular risk.

- **Statin therapy for patients with cardiovascular disease (STC).** HEDIS measure assesses males 21-75 years of age and females 40-75 years of age who have clinical atherosclerotic cardiovascular disease and who received and adhered to statin therapy.
- **Statin therapy for patients with diabetes (STD)** assesses adults 40-75 years of age who have diabetes and who do not have clinical ASCVD, who received and adhered to statin therapy.

Adherence to prescribed medication is key to patient care and SPC/SPD measure success.

HEDIS® is a registered trademark of the National Committee for Quality Assurance (NCQA).

Specialty pharmacy updates - February 2022*

Published: Feb 1, 2022 - **Products & Programs** / Pharmacy

**Notice of Material Amendment/Change to Contract (MAC)*

Specialty pharmacy updates for Anthem Blue Cross and Blue Shield (Anthem) are listed below.

Prior authorization clinical review of non-oncology use of specialty pharmacy drugs is managed by Anthem's medical specialty drug review team. Review of specialty pharmacy drugs for oncology use is managed by AIM Specialty Health® (AIM), a separate company.

Please note, inclusion of National Drug Code (NDC) code on your claim will help expedite claim processing of drugs billed with a Not Otherwise Classified (NOC) code.

Prior authorization updates

Effective for dates of service on and after May 1, 2022, the following specialty pharmacy codes from current or new clinical criteria documents will be included in our prior authorization review process.

[Access our Clinical Criteria](#) to view the complete information for these step therapy updates.

Clinical Criteria	Drug	HCPCS or CPT Code(s)
*ING-CC-0204	Tivdak	J3490, J3590, J9999
ING-CC-0072	Byooviz	J3590
ING-CC-0068	Skytrofa	J3490

* Oncology use is managed by AIM.

Note: Prior authorization requests for certain medications may require additional documentation to determine medical necessity.

Step therapy updates

Effective for dates of service on and after May 1, 2022, the following specialty pharmacy codes from current or new clinical criteria documents will be included in our existing specialty pharmacy medical step therapy review process.

[Access our Clinical Criteria](#) to view the complete information for these step therapy updates.

Clinical Criteria	Status	Drug	HCPCS or CPT Code(s)
ING-CC-0072	Non-Preferred	Byooviz	J3590

Quantity limit updates

Effective for dates of service on and after May 1, 2022, the following specialty pharmacy codes from current or new clinical criteria documents will be included in our quantity limit review process.

[Access our Clinical Criteria](#) to view the complete information for these step therapy updates.

Clinical Criteria	Drug	HCPCS or CPT Code(s)

Get faster payments with EFT

Published: Feb 1, 2022 - **State & Federal** / Medicare

Effective November 1, 2021, EnrollSafe* at <https://enrollsafe.payeehub.org> replaced Enrollhub® from the Council for Affordable Quality Healthcare, Inc. (CAQH) as the electronic funds transfer (EFT) enrollment website at no cost to Anthem Blue Cross and Blue Shield (Anthem) providers.

EnrollSafe is safe, secure, and available 24-hours a day

Log onto the EnrollSafe enrollment hub at <https://enrollsafe.payeehub.org> to enroll in EFT. You will be directed through the EnrollSafe secure website to the Registration page, where you will provide the required information to create an account and then Enroll to supply your banking information.

Already enrolled in EFT through CAQH Enrollhub?

If you were previously enrolled in EFT through CAQH Enrollhub, no action is needed unless you are making changes. Your EFT enrollment information will not change as a result of the new enrollment hub.

If you have changes to make, use <https://enrollsafe.payeehub.org> to update your account.

For more information or additional questions regarding the EnrollSafe Enrollment Hub portal, the provider can contact the Support team by calling 877-882-0384, Monday through Friday, 9 a.m. to 8 p.m. ET.

* EnrollSafe is a tool developed by Zelis Payments, an independent organization offering electronic fund transfer services on behalf of Anthem Blue Cross and Blue Shield.
